MEMORY CARD

How have you been touched by The Black Panther Party **?**

As a kid who immigrated from the Philippines and grew up in Alameda and Oakland, I was blessed to have not only reaped the benefits of the Panthers (i.e. school lunches) but also having been taught about the Party in an honest way. Its ideologies are still so inspiring and I have hope that the foundation they provided ~~provide~~ gives us as the next generation a stepping stone to the revolution!
